

GLOVES

To choose your motorcycle gloves, take a tape measure.

Without tightening it is necessary to measure your turn of hand, that is to say, the turn of the palm without the thumb.

Then refer to the table of correspondence below.

If you get an intermediate average, we advise you to choose the lower size.

Hand size		XS	S	M	L	XL	2XL	3XL
Hand size	WOMEN	5	6	7	8	9	10	11
palm circumference expressed in inches	MEN	6	7	8	9	10	11	12
palm circumference in mm		152	178	203	229	254	279	304
